About us

ABOUT US

The Kirchenbuchportal GmbH was founded in May 2013 by the Evangelical Church of Germany together with eleven regional evangelical churches. Three additional regional churches joined the organization in 2016. The company is headquartered in Stuttgart, and its main task is to maintain and operate the Archion brand. As a part of this mission, a primary goal is to make church books and other biographical and genealogical resources available to users through the Archion internet platform.

PARTNER ARCHIVES OF THE KIRCHENBUCHPORTAL GMBH

With the addition of EZAB records, there are more Evangelical church records for Germans who lived in Prussia, Pomerania & Silesia.

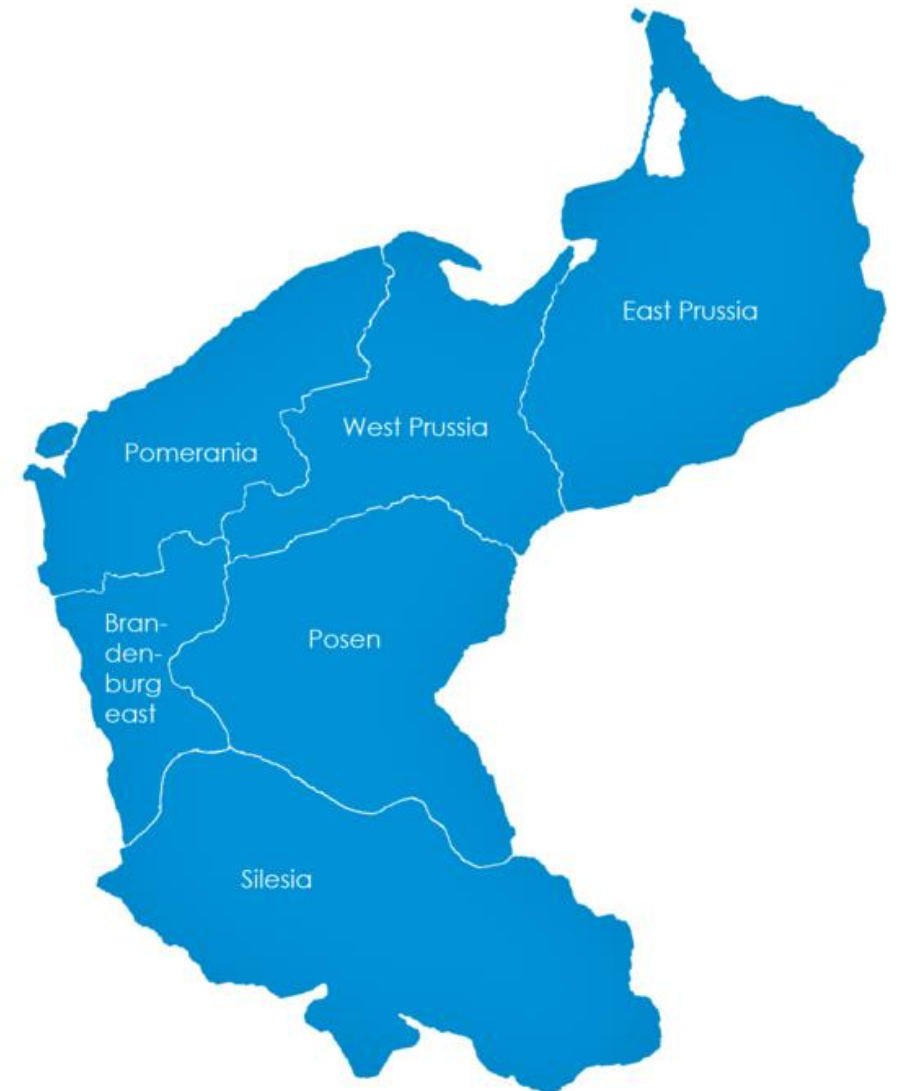

Information about these locations will need to be searched with German terms.

About us

TRY ARCHION FOR FREE

We are often asked whether Archion could be tested for free. We think that this desire is justified in many ways and absolutely understandable. After all you want to know what to expect from family research with Archion.

Experience, investigate and explore the digital church record research with our testing site HILDRIZHAUSEN. Without login, registration and without providing any personal data – non-binding and without any risk.

TO THE TESTING SITE

- Archion has a testing site where the portal may be examined without a commitment to a registered membership.
- However, the number of parishes posted there is limited & may not be helpful to particular research.
- Some searching of available parishes & types of records is possible on the website, but no records may be examined without a subscription pass.

2 REGISTRATION

Register for free online

If the church records you are looking for are already online please register to use the website. Genealogical researchers that are using Archion for the first time can register by clicking on the *Register* button at the top of the page. If you already registered for the site simply click on *Login*.

SEARCHING

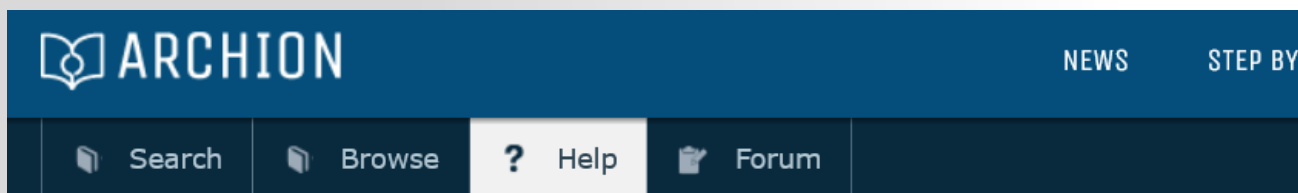

- Become familiar with what is available in Archion by using the Search box even without registration.
- Select Digitally Available, a year span & a location.
- For example, Westpreussen & 1750-1800 retrieves more than 100 results, so the list is abbreviated.
- Searching Bromberg for 1750-1800 retrieves 9 b/m/d files for Kreis Bromberg in Provinz Posen.
- You can see if the records you need are listed before registering.

The screenshot shows the Archion website's search interface. At the top is a dark blue header with the 'ARCHION' logo on the left, and 'NEWS' and 'STEP BY STEP' links on the right. Below the header is a navigation bar with 'Search', 'Browse', 'Help', and 'Forum' links. The main content area is titled 'SEARCH' and contains several input fields: 'TEXT', 'LOCATION', 'PERIOD' (with 'UNTIL' and a second period field), and a large green 'SEARCH' button. To the right of these fields is a 'SOURCE' section with checkboxes for 'REGISTER', 'DIGITALLY AVAILABLE' (which is checked with a green checkmark), 'UGC', 'FORUM', and 'WEBSITE'.

Tracing the migration of the ancestors of SGGEE member Victor Gess's Rode family, we found that Wilhelm and two of his siblings married in Pułtusk. The marriage records stated that all three brothers had been born in Prussia but Wilhelm's indicated Altfließ, known in Poland as Stara Rzeka, Swiecie, Kujawsko-Pomorskie, Poland. There are no Polish records for the births of the brothers or the marriage of their parents. We need to find the Prussian parish records.

NAMENSVERZEICHNISSE TAUFEN 1775-1829

Ostgebiete: Evang. Zentralarchiv Berlin > Kreis Schwetz (Provinz Westpreußen) > Schwetz, Landgemeinde

- Access to names in German parish records in most of these parishes is through compiled alphabetical indexes, not through ones at the end of each year.
- Since we only have approximate birth years for the Rode brothers, we need to find more information.
- The alphabetical name indexes for the Schwetz Landgemeinde is the place to begin: Taufen 1829-1841 (baptisms). This looks promising.
- NOTE: You can't search these until you have a "pass."

- Widow: Eva geb. Klawonn & 3 children: Martin, 49; Julianna m. Pannicke & Maria m. Mielcke
- This record provides the name of his wife and that of 3 surviving children: Martin, 49? (b. abt 1792 or 1798? & married Anna Klatt), Julianne who married a Pannicke, & Maria who married a Mielcke. We can now look for more births & marriages.

- Konstance Remus married Samuel Kliner; they lived in Zalucze. When she died in 1858, she was a 79-year-old widow in Zalucze [b. abt 1779]. Children: Karolina, Marianne, Anna & Konstance. Samuel must have died already, though his death is not recorded here or in LubGens data that has been indexed. However, the list of surviving children is verified by information in both databases.
- Archion is the likely database to find records for this region in West Prussia, though we first need to verify the location for Schöneck suggested by Remus descendants as “home.”

ESTABLISH LOCATION OF SCHÖNECK

- www.kartenmeister.com is the database to use for establishing the German names & history of locations in Prussia, Posen, Pomerania, Silesia & other border regions in this area common to German & Polish ancestors. Parish & population information as well as map links are provided.
- We can now search in Archion for Schöneck in Kreis Berent for the Remus family between about 1775 and 1825 to find some of those family members who migrated to Zalucze.

REMUS SEARCH IN SCHÖNECK

- Konstance was likely born after 1779 (since ages at death are often inflated).
- Her brother Christian married Elisabeth Rode; they, too, lived in Lublin parish.
- The Remus family believes their parents were Johann Georg Remus & Anna Marie Klatt.
- The family lived in the Schöneck area, i.e. Landgemeinde, not the city itself. Otherwise, more name indexes would need to be searched.

The screenshot shows the ARCHION website's search interface. The header is dark blue with the ARCHION logo and navigation links: NEWS, STEP BY S, Search, Browse, Help, and Forum. The main search area is white and contains the following elements:

- SEARCH** heading
- TEXT** field: Schöneck
- LOCATION** field: (empty)
- PERIOD** fields: 1775 (start) and 1825 (until)
- SEARCH** button: A green button with the text SEARCH
- SOURCE** section with three checkboxes:
 - REGISTER: ☐
 - DIGITALLY AVAILABLE: ☒ (indicated by a green checkmark)
 - UGC: ☐

- We can narrow our search from about 1775 to 1825 by which time some family members lived near Lublin.
- We can look first at the name indexes in the Landgemeinde.

ARCHION ARCHIVES DATABASE REVIEW

- Research archive locations to use proper German names of villages, provinces & parishes. Umlauts are necessary in Archion.
www.kartenmeister.com is extremely useful for this.
- Have notes with known information ready to search efficiently.
- Determine whether the city (Stadt) or regional (Land) archives are most useful.
- Check name indexes first & make notes of names & page numbers.
- Remember new records & entire archives continue to be added.
- Keep research notes on file location, years, primary names & image (Bild) numbers when searching through a file. Some families may be more useful after finding record data.
- Since the number of downloads per pass are limited, notes will indicate importance for priority records.
- Utilize the script examples & handwriting tutorials available on Archion or through SGGEE:
https://www.sggee.org/research/translation_aids.html

GOOD LUCK!

VIEL ERFOLG!
