

SGGEE Nominating Committee Guidelines

Revised 2008

The Nominating Committee is comprised of at least 2 Members of the Society one of which will be the Past President or one of the outgoing Directors. This Committee will be appointed by April 30th annually by the Board.

Purpose:

- The job of the Nominating Committee will be to secure Members in good standing to run for election to the Board of Directors of SGGEE.

Screening of Prospective Candidates:

- The Committee has the authority to approach any Member(s) for their recommendations and it is suggested that the “experience” of those at “Contact” be utilized.
- During the selection process a “Biography” of the candidate should be completed including such information as age, place of residence, occupation, Board of Directors experience, and areas of interest.
- It is possible that the Committee will find more suitable candidates than there are positions open. This can be a motivating factor. The unsuccessful candidate(s) can be asked to serve on Committees to utilize their interest in serving.

Election:

- The Nominating Committee will announce the Candidates at the AGM and read the Biographical information pertaining to each Candidate.
- The Candidates if they are in attendance should be asked to speak to the Membership as to why they would like to serve.
