

## Index of Individuals in Village Books Galicia, Austria

This database is an index of Germans listed in various 'Village Books' of Galicia, Austria, from about 1788. Many of the listings are from 1788 to 1870 while some are as recent as 1939. The date varies with individual villages. 'Village Books' are listings of inhabitants of a village during the period shown. The 'Village Book' gives the name of the person and, where known, spouse, parents, children, and the Birth, Marriage, and Death dates and places, and the source of the information. The information is extracted from various sources such as Parish records and Census records.

As the resident, their spouse, parents, and children are all listed in the village book, the same names may appear in several of the books. For example, Johann may have been born in Kliendorf, moved to Dornfeld, his father lived in Hoenback, Johann's information will usually appear in the village books for all three locations. It is for this reason some individuals may show up in two or three times in this index.

The majority of these people were Lutheran/Evangelical although a number were of the Roman Catholic faith.

This information is not available elsewhere on the Internet. Bill Fife [wmfife@telus.net](mailto:wmfife@telus.net) has a copy of the village books shown below and is willing to do lookups and share the information with other SGEE members. There are over 317,000 entries in this index of 161 Village books. The index is broken into 16 parts and because of the size of each, they may take a few minutes to load when viewing so be patient.

If you have ancestors from Galicia, search the database. If you find a connection with your family tree, e-mail the Full Name, Birth date, and Village to Bill at [wmfife@telus.net](mailto:wmfife@telus.net). He will search the village book and e-mail you a copy of any relevant information found.
